

EXHIBIT A

Appn # 10/602,763

EXHIBIT B

Claim 93:
plus: 1) aperture on resilient member
2) snap button on other handle

(see Fig 13-A)

optional

optional

Linking Claim 88:

- 1) dual rake heads
- 2) dual handles with hand grips
- 3) connecting means comprising a gripping connection that operates normal to raking plane

Embodiment I

Claim 110:
plus: pivotal connection

Embodiment II

Claim 92:
plus: second branch for arm leveraged handle

Embodiment III

Claim 95 (independent):

- 1) dual rake heads
- 2) dual handles with hand grips
- 3) connecting means comprising tube and snap button

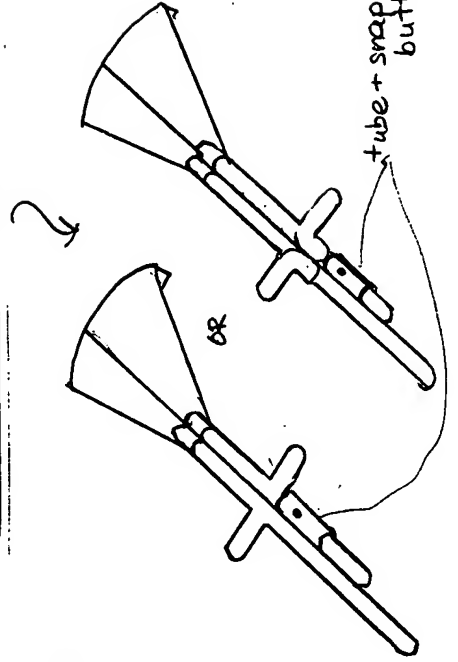

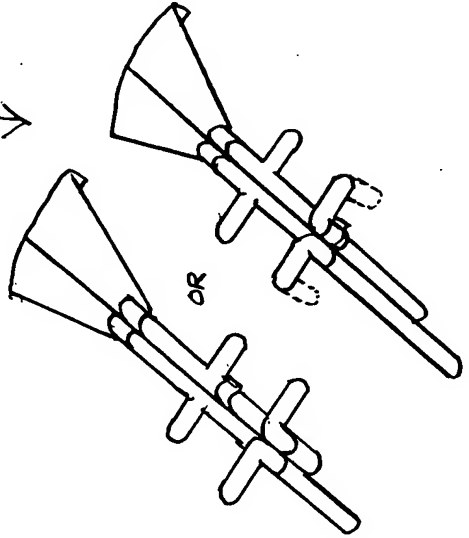

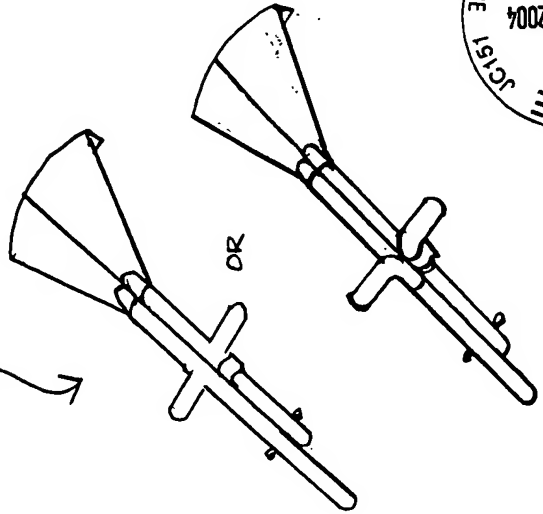

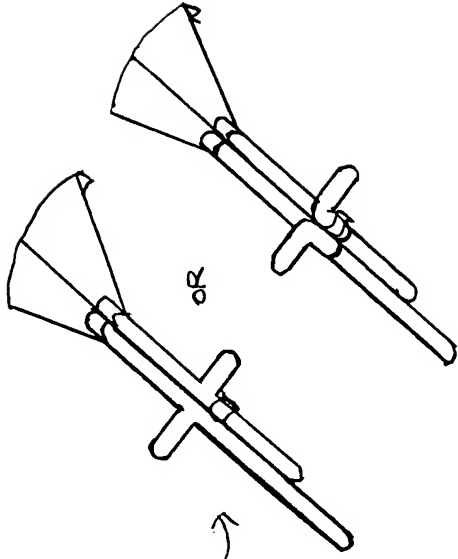

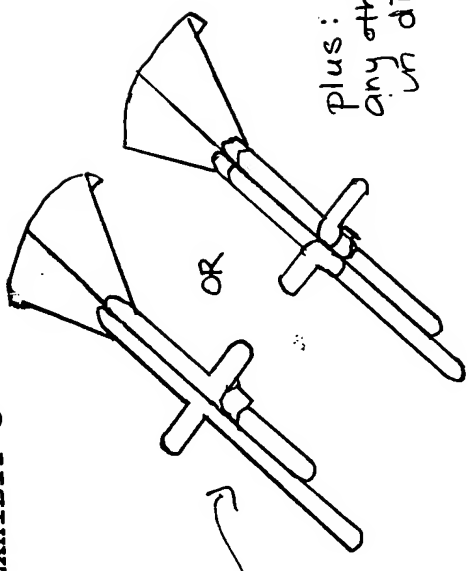

EXHIBIT C

Appn. # 10/002,763

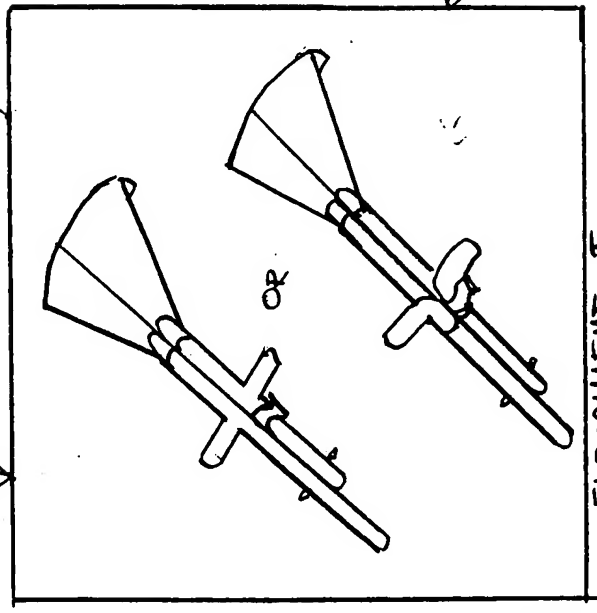

Group I
(claims 57-61 and 116)

Claims 57-61:
1) dual rake heads
2) dual handles with hand grips
3) connecting means comprising a gripping connection that operates normal to raking plane

plus:
any other connecting means
in disclosure

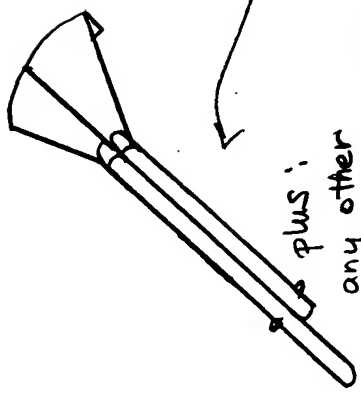

Claim 116:
plus: pivotal connection

EMBODIMENT I

Group II
(claims 81-87, 106-109)

Claim 81:
1) dual rake heads
2) dual handles
3) connecting means comprising a pivotal connection

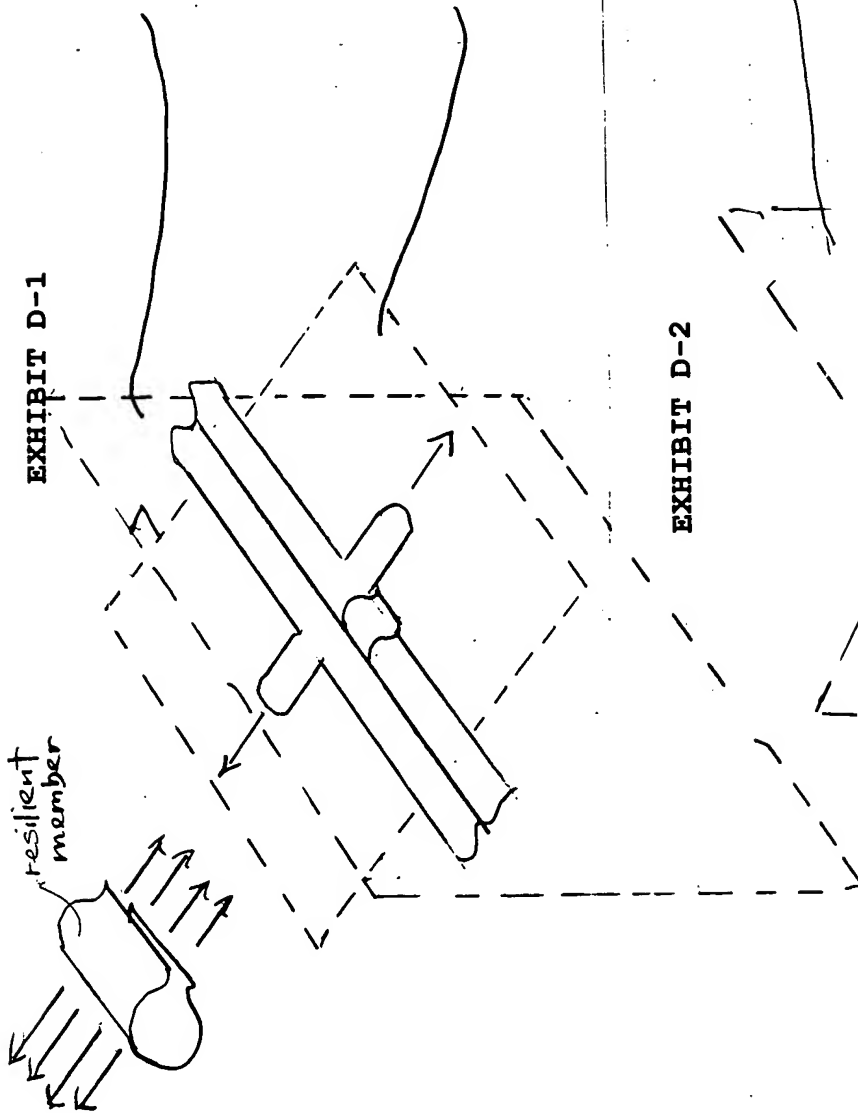

plus:
any other means
connecting means
in disclosure

Claim 108:
plus: resilient member
plus: hand grips

Appn. # 10/002,763

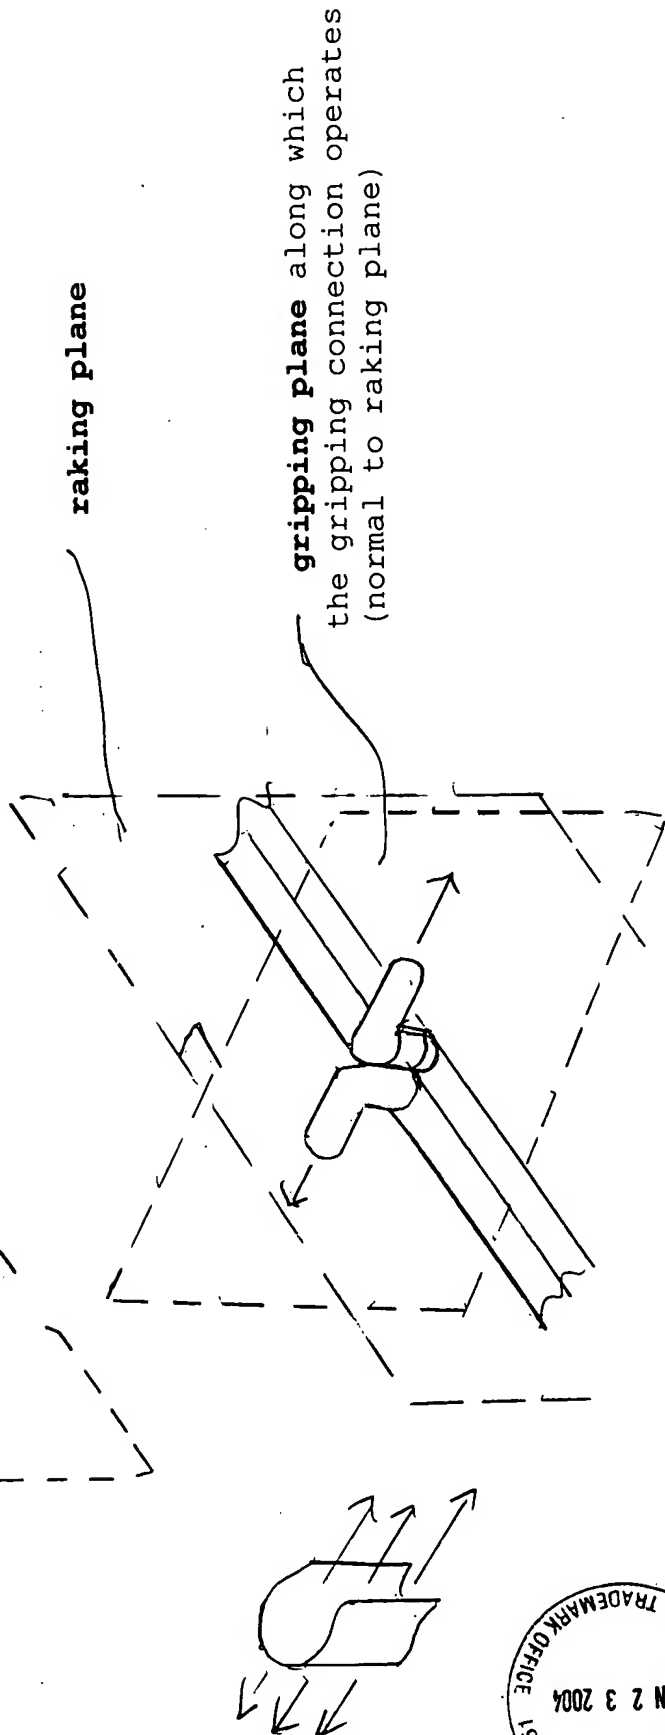

EXHIBIT D-1

raking plane swept by the longitudinal axes of the handles during raking operation (also the plane where Mitchell's semi-circular grip operates)

gripping plane where gripping connection operates (normal to raking plane)

EXHIBIT D-2

raking plane

gripping plane along which the gripping connection operates (normal to raking plane)
